

Fact Sheet

Our Company.

- VeriPrime™ is a member owned federation of cooperatives that was founded in 2003.
- We offer a prevention-based food quality and safety program that assures consumers, participants, governmental and non-governmental purchasing organizations beef products that have been found in conformance with a series of science-based prevention protocols targeting microbial and other safety threats.
- We provide food safety protocols for every step along the food supply chain.

Our VeriPrime™ Food Safety System.

- The VeriPrime™ Food Safety System targets E. coli 0157:H7 in beef and will expand to include, leafy greens and other foods, and Salmonella in chicken, pork and other foods.
- The system not only tackles old problems, but also seeks to prevent new ones.

Our Results.

- Certify proper implementation of prevention protocols presently targeting E. coli in beef, and soon to include other foods.
- Expand to certify proper implementation of prevention protocols targeting Salmonella in chicken, pork and other foods.

Our People.

- **Founder CEO:** Dr. Scott Crain, DVM
- **COO:** Arnie Sumner
- **Head of Marketing:** Hal McCoy

Our Supply Chain Participants.

- Farmers and ranchers who grow crops and raise animals.
- Processors and distributors that process and move the products to markets and restaurants across the country.
- Retail restaurants and food outlets, as well as food service companies, who sell food to consumers.

Our Third Party Auditors.

- Agri Food Certification, a certifying body accredited by the USDA-AMS for Certified Traceable feed and food under its ISO Guide 65 program.
- Audits are conducted at each company, every year to confirm compliance.
